INSTRUCTIONS

To attend child care, children must have immunizations outlined below by age. Parents must present their child's Immunization Record as proof of immunization. Copy the full date of each shot onto the blue California School Immunization Record card and then determine if the child is up-to-date. Blue cards are available free from the Immunization Coordinator at your local health department. As the child care provider, it is your responsibility to follow up regularly until all shots are finished.

Please note the temporary change in entry requirements for Hib.

EXEMPTIONS

The law allows (a) parents/guardians to choose exemptions from immunization requirements based on their personal beliefs, and (b) physicians of children to choose medical exemptions from them. The law does not allow parents/guardians to choose an exemption simply because the "shot" record is lost or incomplete and it is too much trouble to get to a physician or clinic to correct the problem. The back of the blue California School Immunization Record has instructions and an affidavit to be signed by parents who want a personal beliefs exemption. An up-to-date list of children with exemptions should be maintained separately by the child care staff so that these children can be quickly identified and excluded from attendance if an outbreak occurs.
