

Clinical Competencies in Breastfeeding Care & Early Infant Feeding Assessment

FREE clinical lactation education is now available for physicians, midwives and nurses providing primary care for breastfeeding couples at Community Health Centers in Alameda County.

Clinical Competencies in Breastfeeding Care and Early Infant Feeding Assessment April 1 through August 31, 2021

- ◆ **CME, Nursing CU, and L-CERP credit available**
- ◆ Self-paced, online state of the art training
- ◆ Technical assistance available for providers and managers
- ◆ Toolkits/resources for staff and patient education
- ◆ Achievement awards for health centers upon completion

Community Health Centers with 6 or more providers completing the program by August 2021 will be awarded a certificate of recognition and receive a resource library valued at over \$300.

Space is limited to ensure access for all community health centers
Contact Jeanne Kettles, MA, IBCLC to learn more and reserve your space
