

Why does my speech therapist look different?

A Story for Children

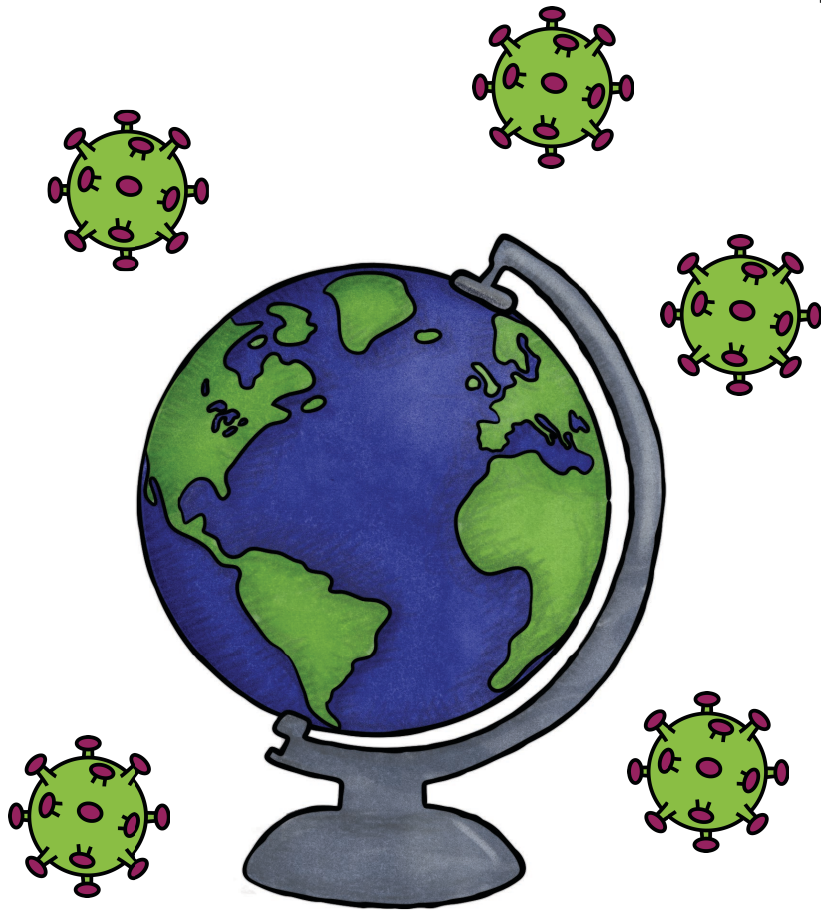

I'm going to an appointment
with my speech therapist.

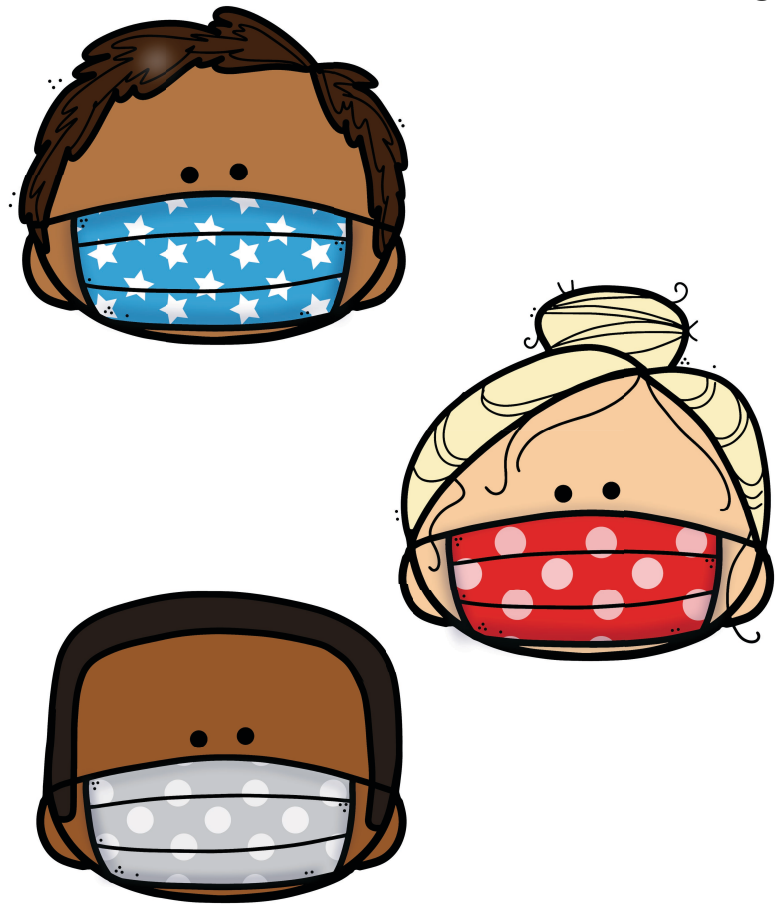

Usually I can see my speech therapist's nose and mouth.

But now, my speech therapist must wear a mask. The mask covers his or her nose and mouth.

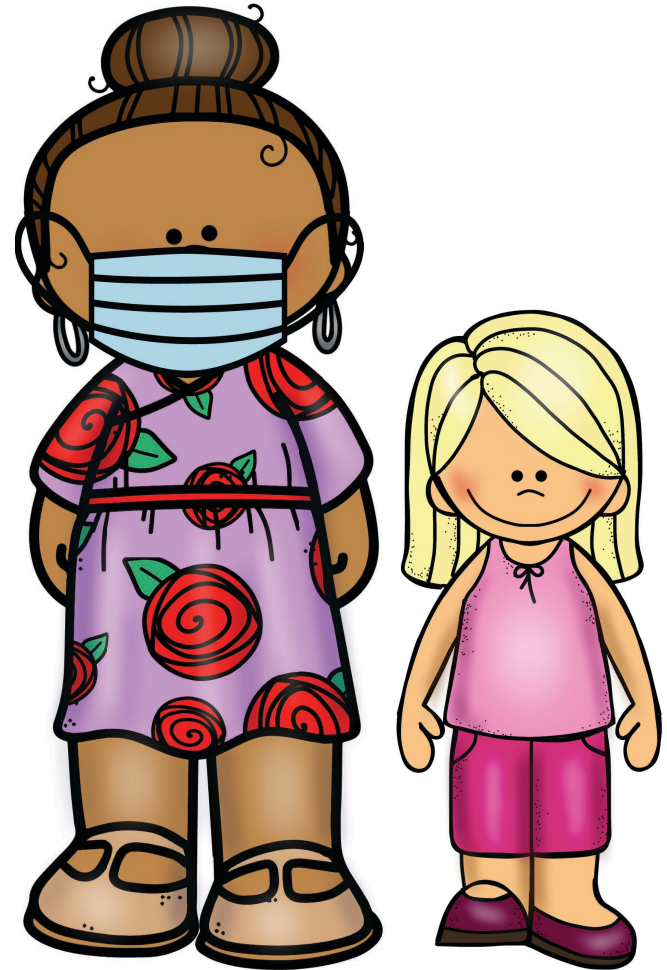

There a virus called
Coronavirus going around the
world right now. It makes
some people get sick.

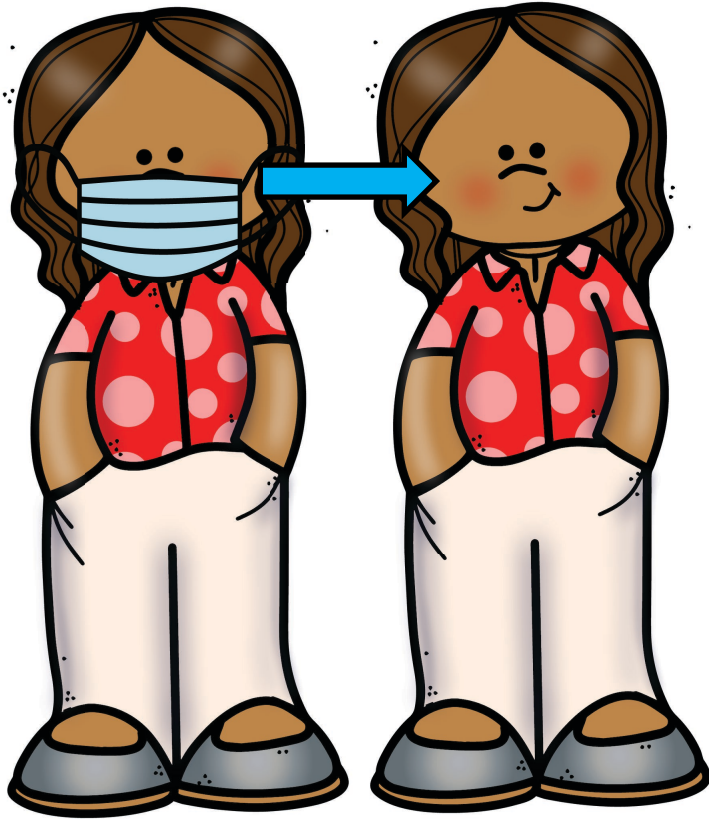

I've probably seen a lot of
people wearing masks lately!
Masks help prevent people
from getting sick.

It will be different to see my
speech therapist wearing a mask.

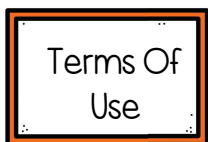

But, we will both get used to it!

I can remember that my
speech therapist's nose and
mouth are still under the mask.

Sometimes I can look at my
therapist's eyes and I can
tell he or she is smiling at me!
