

California Statewide Medical and Health Exercise 2019 - Flooding Event **NEW DATE! 2/26/20, 9am-12pm**

Alameda County Operational Area Exercises

Functional Exercise w/County EOC Participation - **2/26/20, 9am - 12pm**

Multiple Locations Throughout the County

Exercise Registration: <https://veoci.com/veoci/p/form/zsnzfnudtzv3>

Exercise Purpose: Operationally address and coordinate response functions of the Disaster Preparedness Health Coalition and its partners to a severe flooding event across the Alameda County Operational Area.

Exercise Goals:

1. Coordinate messaging disseminated by the County to healthcare coalition partners, to include those with access and functional needs (AFN).
2. Coordinate health care system patient care during a flood event.
3. Monitor patient tracking across healthcare system.
4. Maintain healthcare system situational awareness in coordination with the MHOAC Program and Health Care Coalition Partners.

Exercise Webinar: **2/26/20, 9am - 12pm**

PLEASE NOTE: There's no need to register again if you previously registered. New participating healthcare facilities should register at:

<https://register.gotowebinar.com/register/4497667064134513155>

- Intended to facilitate participation throughout the exercise for healthcare partners with interactions to/from the Health Care Services Agency Department Operations Center (DOC) and Operational Area Emergency Operations (EOC).
- Your incident command/management team will be able to participate together from your command center and follow along and respond to the information and tasks presented in the webinar.
- Only 1 person from each organization should be registered for the webinar. This should be your facility's exercise controller.
