

FREE Facility Preparedness Walkthrough

For Service Providers of

- ❖ *Persons with Disabilities*
- ❖ *Frail Seniors*
- ❖ *Homebound/Nonambulatory Individuals*
- ❖ *Other populations that may be extremely vulnerable in an emergency or disaster*

Is Your Organization Prepared to Respond to Its Clients' Needs In a Emergency or Disaster?

A Facility Preparedness Walkthrough is an assessment to pre-identify potential workplace hazards in the event of a emergencies such as Fires, Earthquakes, and Medical Emergencies. The goal is to identify each potential hazard and plan a corrective course of action if necessary. Each client has an opportunity to ask questions about building preparedness and get support if needed. Assessments include:

- | | |
|------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
| <ul style="list-style-type: none">• Fire Extinguishers• Signage• Lighting• Hallways | <ul style="list-style-type: none">• Floors• Furniture• Smoke Detectors |
|------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------|
