

Our Work

- 👉 Collaborate to create a health workforce that is representative of the diversity of the state's population
- 👉 Create a seamless line of longitudinal support for students at all stages of the path toward a health career
- 👉 Enhance opportunities for underrepresented students to enter professional careers in health and science
- 👉 Serve a critical role to increase diversity among health professionals, provide educational opportunity, and address efforts to reduce health disparities
- 👉 Serve over 1,000 ethnically diverse youth annually

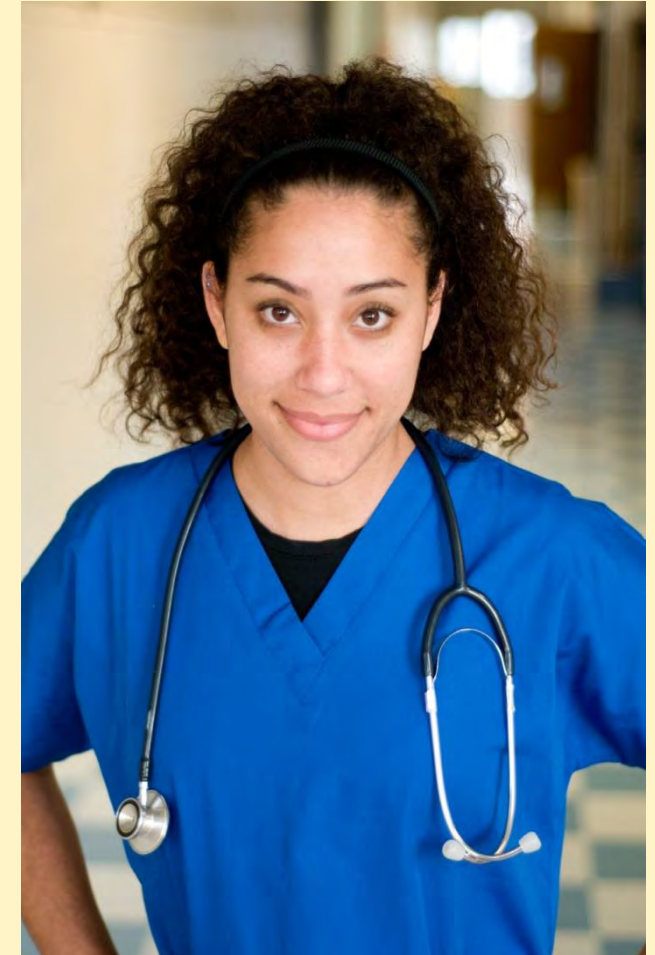

Vision

To have a health workforce that reflects the ethnic and cultural diversity of our community.

The Alameda County Health Pipeline Partnership is a consortium of organizations in Alameda County that increases the diversity of the health workforce by providing:

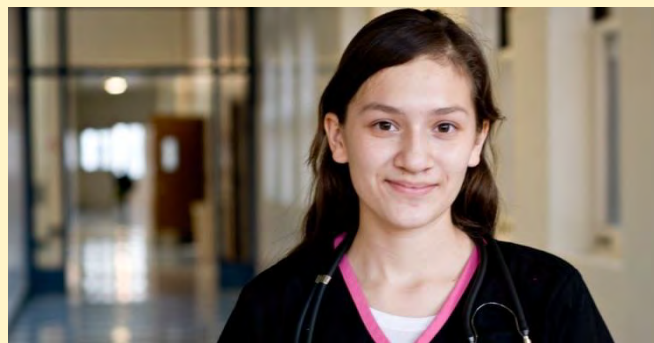

- mentorship
- academic enrichment
- leadership development
- career opportunities

Together we create a seamless health career pathway for underrepresented youth through collaboration and communication.
